

International workshop on amyotrophic lateral sclerosis: new genes, new treatments, new hopes...

Eva de Lago, Carmen Rodríguez-Cueto, Yolanda García-Movellán and Javier Fernández-Ruiz

Department of Biochemistry and Molecular Biology, Faculty of Medicine, Complutense University, 28040-Madrid (Spain)

This workshop will attempt an update of the most recent advances in the field of amyotrophic lateral sclerosis with emphasis on new identified genes and new treatments under investigation. It will count with a sample of the most relevant clinical and preclinical researchers in the field....
